Location

United States

Challenge

Gain improved visibility into AWS costs and enhance cost optimization.

Featured Services

AWS Consolidated Billing, DevOps Consulting Services, AWS Well-Architected Framework Review

Challenge:

Gain improved visibility into AWS costs, and enhance cost optimization.

Why AWS and nClouds

Recently, nClouds introduced Leading Bath & Spa Products Company to AWS consolidated billing for AWS Organizations to help them optimize their costs. The company had an ongoing relationship with nClouds that began in 2019 when they asked nClouds to perform an [AWS Well-Architected Framework Review](#) (WAFR) of their data ingestion platform. Based on the WAFR recommendations, the company asked nClouds to provide [DevOps Consulting Services](#) to help them refine and maintain their existing AWS infrastructure.

Leading Bath & Spa Products Company leverages Amazon Web Services:

- **AWS Organizations** - Provides policy-based management for multiple AWS accounts.
- **Consolidated billing for AWS Organizations** - A feature in AWS Organizations that enables the company to consolidate billing and payment for multiple AWS accounts. nClouds provides the consolidated bill to the company.

The Benefits

Teaming with nClouds, Leading Bath & Spa Products Company now has enhanced cost optimization. The project has yielded numerous benefits:

Volume pricing discounts & single bill simplicity with AWS consolidated billing

As a free service, the AWS consolidated billing feature of AWS Organizations gives the company one bill with easy tracking across multiple accounts, and the ability to combine their usage across all accounts to gain volume pricing discounts.

Improved visibility into AWS costs

Along with only having to deal with a single bill, the company now can track the charges across multiple accounts and download the combined cost and usage data.

Since 2019, nClouds has been there for us to enhance our infrastructure in alignment with the AWS Well-Architected Framework. They continue to advise us on new ways to optimize our AWS costs, the latest being AWS consolidated billing, to help fuel our continued success.”
